\*These courses may be taken at another accredited college or university as can any of the required basic studies courses still needed for the BA or BSW degree. One basic studies course must be in human biology (APB 1820) to meet the social work major requirement for biological content.

V. Summary of These Requirements:

To earn the BSW at Saint Leo College after completing the Human Services Technology Associate in Science degree from Hillsborough Community College, the student needs:

29 semester hours in Liberal Arts Foundation Courses  
45 semester hours in the Social Work Major

Total 74 semester hours\*

\*The student can complete these requirements for the BSW degree in two calendar years. Course sequencing is an important feature of the BSW curriculum and, since a number of courses are offered only once a year, the student needs to begin this sequence in the September term in order to complete the program in two consecutive years.

Any student who seeks to earn the BSW degree at Saint Leo College will be given a social work faculty member to help work out the particulars of his/her academic program.

This Agreement shall be continuous from the date shown below and may be reviewed and modified on an "as needed" basis per either party's request. Either party may terminate this Agreement at any time upon sixty (60) days written notice to the other party, provided the termination shall not become effective until after the current term has been completed.

In Witness Whereof, the parties hereto have executed this Agreement this 20th day of May, 1992.
